Vitamins C & D

CURCUMIN

Turmeric root extract

Origin: India

Use of turmeric has been documented for more than 4,500 years, both for cooking as well as for diverse therapeutic applications.

Ayurvedic Medicine

Turmeric is one of the founding plants of the first medical system in the world – Ayurveda.

Studies show

Supports cognitive function, liver function and sustains healthy intestinal function.

Scientific Research

In recent years, scientists have become extremely interested in the powerful anti-inflammatory effect of curcumin from turmeric, making it one of the most studied plants in the world thanks to its multiple health benefits.

Overcomes the barrier of **BIOAVAILABILITY**

The active substance of Turmeric called curcumin is a lipid and as such is not easily assimilated into the bloodstream.

With our patented BioMS processes we increase the absorption up to 277 times more into the bloodstream.

**CURCUMA
PLUS**

the Synergy of the ingredients

“The combined power of a group of elements is greater than the total power of the sum of its parts”

The advanced formulation of CÚRCUMA Plus has a distinct advantage in addition to the powerful absorption benefits of BioMS Technology.

An interaction between the components is known as a synergistic effect. This product offers a more powerful result than what can be obtained from each ingredient individually. This means that it is scientifically proven that the power and benefits of CÚRCUMA Plus formulation are far superior to the sum of the benefits of each of its separate components.

THE PLUS

Ginger (Zingiber officinale):

This root belongs to the same aromatic plant family as turmeric and its rhizome has been studied for centuries due to its multiple health benefits. It's best-known for being a natural antiemetic (anti-nausea) and for its benefits to the digestive system.

Vitamin C (ascorbic acid):

Water soluble with antioxidant activity, it is necessary to repair tissues as it intervenes in the formation of collagen. Also, it improves the absorption of iron and contributes to the proper functioning of the immune system, protects our vision, protects the endothelium (structure of our blood vessels) and recently its neuroprotective role has been identified in studies.

CÚRCUMA Plus is made by a formulation that applies patented BioMS Technology with the following international patents:

- **International application: PCT/EP2013/001427**
- **Utility model protection Germany: 20 2012 012 130.8**
- **International proprietary emulsifier system: EP 10785 350.9**

How can CÚRCUMA Plus

help you?

Studies have shown that this combination of ingredients offers the following health benefits:

- Promotes the well-being of all cells*
- Supports healthy cognitive function*
- Benefits normal liver function*
- Helps renal function*
- Supports cardiovascular protective action*
- Sustains healthy gastrointestinal function*
- Supports a healthy inflammatory response*¹
- Aids in visual health*
- Promotes the immune response*

Give your body the nutrients it requires along with the right thoughts & healthy lifestyle. Add CÚRCUMA Plus to your diet and you'll notice a change in your energy, vitality and health.

1. Refers to acute inflammation, which constitutes a natural, protective response that seeks to free the organism from the initial cause of the cell injury and the consequences that it causes.

Suggestions of Use:

Take 10 drops of CÚRCUMA Plus daily
diluted in water or the liquid of your choice.
You can increase the quantity if necessary
